

You have committed to providing the best investment information and advice... Let GlowTouch help you deliver.

## GLOWTOUCH FINANCIAL SERVICES OFFERING

### More Automation, Higher Productivity, and Better Information

GlowTouch is a U.S. technology services company that enables its clients to leverage a broad range of software development expertise and outsourced business support services. GlowTouch clients are able to outsource their projects to the most technically qualified team of developers in order to provide the most complete, economical and efficient solution. With over 900 employees across the U.S. and its development center in Mangalore India, GlowTouch is able to provide exceptional service and the highest level of technical expertise with an economical fee structure.

GlowTouch solutions are designed to address the operational, analytical, compliance, regulatory and reporting challenges faced by the financial services community. GlowTouch Financial Services Practice serves the broad spectrum of financial institutions including; banks, brokerages, insurance companies, registered investment advisers, alternative investment funds, private equity funds and mutual fund companies. At the core of all GlowTouch solutions is a deep

understanding of the technical expertise needed to address our client's needs, how the technology impacts the business process and how to correctly integrate all products including commercial software products, third party vendors, legacy systems and custom applications. GlowTouch inherently understands that the financial services industry is data driven and that each client utilizes this data differently to maximize the efficiency of their respective operation.
